Day 1

Dinner

Toronto.... Toronto is as cosmopolitan as they come. To newcomers, Toronto may seem like just another big city - downtown is dotted with skyscrapers, the city's streets are bustling with people on the go and the public transportation system is top-notch. But lift up the hood of Canada's biggest city and you'll find there's more to the eye than an amazing skyline. Toronto is considered one of the most culturally diverse cities in the world, with more than half the population born outside of the city. Toronto houses 200 ethnic groups that speak upward of 140 different languages, making this Ontario destination a world all its own. With Greektown, Little Italy, Koreatown and Chinatown all within city limits, travelers may feel as if they've seen more than a couple of countries after a visit to Toronto.

Cultured and cosmopolitan, Toronto manages to remain relaxed, livable, and fun all at the same time. Canada's center of the arts and media has plenty of pleasant tree-lined streets in Yorkville for window-shopping and wandering; a host of independent galleries in West Queen West with edgy works; big-name music festivals year-round; and an adventurous, constantly evolving food scene. Toronto's impressive sights may be what pull you in, but its vibrant neighborhoods, artistic happenings, and friendly locals will make you want to return.

After our full day in Toronto, it's off to Niagara Falls, approximately a 2-hour drive. On arrival, we'll get checked into our hotel and then off for a pizza party at Clifton Hill. Enjoy!

Niagara Falls... - It's not hard to understand why many consider Niagara Falls a top natural wonder of the world. Or why it has been the location of some incredible daredevil antics over the years. The second you see the mammoth Niagara River rumbling toward a 188-foot waterfall at about 20 to 30 (and up to 68) mph, your mouth will drop. The speed at which the river falls creates a misty fog and an unmistakable roar heard from miles away. From the top, crowds flock to the railings to feel the mist on their faces. As you follow the water's path downward, boats, platforms and observation decks support colorful poncho-clad visitors. Few places in the world blend the majesty of nature with such a warm welcome!

Day 4

Breakfast, Lunch & Dinner included

Good morning Niagara Falls! Today is a day to get entrenched in the fabulous sights and sounds of nature by discovering the incredible falls! We'll start with an introduction at Niagara's Fury.

Niagara's Fury - Discover the ancient story of the creation of Niagara Falls, then step back in time 10,000 years to re-live the glacial devastation and catastrophic changes across the ages. Witness the power and beauty of nature in stunning 4D.

The temperature will drop 20 degrees. Water will bubble and spray while snow falls all around. Standing in the mist on a massive platform you will feel the full wrath of Mother Nature as the floor trembles beneath you. Incredible images will immerse you in a Universal Studios-style attraction. The Niagara Fury experience starts with an 8-minute animated pre-show re-creating how the Ice Age formed Niagara Falls. Then, in a specially designed, 360-degree theatre, witness the Creation of the Falls in a 6-minute, multi-sensory extravaganza!

Next, it's off to see the falls up close and personal!

Hornblower Niagara Cruise - Hornblower Niagara Cruises introduces a whole new way to experience Niagara Falls, with thrilling boat tours aboard state-of-the-art 700-passenger catamarans. Visitors will experience the world-famous tour of the Great Gorge, American Falls, Bridal Veil Falls and get up-close-and-personal with the thundering and powerful Canadian Horseshoe Falls. [WATCH THE VIDEO HERE](#)

IMPORTANT – Cruising schedules are based upon weather conditions. Cruises are generally not operated from mid-December through late April or early May. If you are scheduled during standard times but local weather is not appropriate for cruising, please be prepared for a rescheduled date or a refund. It is important that safety is always first, and we only work with activity providers that put our guests' safety as their main priority. If you decide to come during a time when the cruise is not operating, there are many things for your group to do. If we are not able to reschedule your party, we are happy to use the funds allocated for this on another adventure!

Next, we're going to explore behind the falls!

Journey Behind the Falls - The sound is like thunder, the sight awe-inspiring! Take a journey below and behind the heart of Niagara and stand in the mist and spray. Traverse the network of tunnels that take you deep through the rock behind the Canadian Horseshoe Falls and make your way to the outdoor observation decks that sit at the base of the Falls. A roaring experience!

After a fabulous day spent in nature, we're off for some local Canadian fun!

Oh Canada Eh? Dinner & Show - A true Canadian experience! This award-winning production features over 65 Canadian chart-topping hits from artists like Paul Anka, Shania Twain, Celine Dion, Justin Bieber and many more. Visitors learn so much about Canada, its people and culture; all presented in a fun and entertaining way! The surprising twist of the show is that the performers are also the waiters and waitresses – so when they're not on stage, they're either taking drink orders or serving authentic French-Canadian pea soup, salad, platters of delicious fish, chicken, and roast beef, as well as potatoes, veggies, and maple swirl cake for dessert together with hot tea and coffee.
